

## Service Engineer (geringfügige Beschäftigung)

**Nauticast GmbH** is a company specialized in the field of maritime AIS technology. Ever since the pioneering days of AIS-technology in the early 2000s, Nauticast AIS devices played a major role in the maritime market. The product range covers Class A and Class B AIS devices and corresponding software solutions. The company is located in Vienna whilst a global network of partners provides comprehensive service and state-of-the-art technical solutions to our customers. For supporting our partners and customers in technical questions we are looking for a Service Engineer.

### Tasks:

- First level support per mail and telephone
- Failure analysis to identify problems and suggest solutions
- Work shop activities and repair of faulty units
- Factory Acceptance Tests (FAT)
- Test equipment
- Maintenance, Set-Up and Calibration according to the ISO 9001 procedures
- Technical Support Substitution
- No travel activities scheduled

### Skills

- Electro technical knowledge and understanding
- Software development knowledge and understanding
- Experience in fault finding, break down repair and product maintenance of complex electro-mechanical equipment
- Able to work autonomously or as part of a team
- Communication abilities in German and English both written and oral
- Interest in maritime activities

The weekly working hours for this position are 10h with a minimal gross salary of €400,00 per month. Details can be discussed depending on educational background and working experience. We are looking forward to your promising job applications!
